SUMMARY

Frontend Web Developer based in Maharashtra with a strong foundation in HTML, CSS, JavaScript, and React.js, now expanding expertise into automation testing using Playwright, Cucumber, and Allure for reporting. Skilled in building visually appealing, user-friendly websites with a keen eye for modern design principles, responsive layouts, and performance optimization. Proficient in end-to-end testing, regression testing, and API validation to ensure seamless functionality across platforms. Actively seeking an entry-level role to leverage both frontend development and automation testing skills in a dynamic environment.

SKILLS

Technical Proficiency: - HTML, CSS, JavaScript, TypeScript, React.js, Git

Testing & Automation: - Playwright, Cucumber, Allure, Gherkin, API Testing, Regression Testing

Soft Skills: - Communication, Creativity, Adaptability, Time Management

EXPERIENCE

Frontend Developer & Automation Tester

December 2024 - Present

Tenancy Passport

England, United Kingdom

- Designed and executed automated test scripts using Playwright and Cucumber to validate critical user workflows.
- Implemented end-to-end (E2E) testing strategies, ensuring smooth functionality across multiple devices and browsers.
- Utilized Allure reporting to generate insightful test reports, improving defect tracking and debugging efficiency.
- Automated regression testing, significantly reducing manual testing efforts and accelerating release cycles.
- Conducted API testing to validate backend functionality and integration points.

Freelancer

May 2024
